OBJECTIVE

AI/ML and Full-Stack Engineer with experience building intelligent applications using LLMs, OCR, Computer Vision, Python, FastAPI, React, and Django. Developed multimodal AI systems, document processing platforms, and enterprise applications through industry internships and academic projects. Seeking Software Engineer, AI Engineer, or Full-Stack Developer roles to contribute to scalable and innovative software solutions.

EXPERIENCE

AIML – Full Stack Intern | *Geojit Technologies Pvt Ltd* Jan 2026 – April 2026

- Developed AI-powered applications by integrating LLMs and machine learning models into full-stack systems using Python, FastAPI, and React.
- Built OCR-based document processing pipelines achieving over 90% extraction accuracy for extracting structured data from handwritten and printed forms.
- Developed multimodal AI solutions leveraging Whisper, OCR, and LLMs for speech-to-text, intelligent response generation, and workflow automation, reducing manual effort and improving operational efficiency.

Salesforce Virtual Intern | *SkillWallet (Salesforce)* May 2025 – Jul 2025

- Developed and optimized Salesforce CRM solutions for a vehicle supply chain management system using Flow, Lightning App Builder, Reports, and Dashboards to streamline business operations.
- Automated lead management, inventory tracking, and approval workflows, improving process efficiency and enabling data-driven decision-making through custom reports and analytics.

Technical Skills

Programming Languages	Python, Java, C, C++, SQL, JavaScript
AI/ML	PyTorch, TensorFlow, Scikit-learn, HuggingFace Transformers, LLaMA 3, Whisper, NLP, Computer Vision, OCR
Web Development	React.js, Django, FastAPI, Node.js, HTML5, CSS3, Tailwind CSS, REST APIs
Databases	PostgreSQL, SQLite, SQLAlchemy, MinIO, MeiliSearch
DevOps & Cloud	Docker, Git, Linux, Keycloak, Oracle Cloud Infrastructure (OCI)
Tools	OpenCV, Salesforce, Gradio, VS Code, Jupyter Notebook, BlackboxAI, Devin

PROJECTS

Cloud-Based NAAC Data Management System

Django, React, PostgreSQL, Docker, Keycloak, MinIO, MeiliSearch, OCR

- Developed a centralized accreditation management platform enabling institutions to securely manage, track, and organize NAAC-related documents through role-based access control using Keycloak.
- Integrated OCR-based document indexing, MeiliSearch-powered full-text retrieval, and Dockerized deployment to provide scalable document management and efficient search capabilities.

Template-Based Intelligent Document Processing System

Python, FastAPI, OpenCV, TrOCR, DocTR, EasyOCR, HuggingFace Transformers, Tailwind CSS

- Developed an end-to-end document processing platform using OCR and computer vision techniques to extract structured data from scanned forms and automate manual data-entry workflows.
- Implemented document alignment using ORB feature matching, Homography Transformation, and RANSAC, while integrating TrOCR, DocTR, and EasyOCR ensemble models to achieve over 90

HealthMate – AI Health Companion

LLaMA 3 Vision, Whisper, FastAPI, Gradio, ElevenLabs, SQLAlchemy, SQLite

- Developed a multimodal healthcare assistant supporting voice, text, and image interactions by integrating LLaMA 3 Vision, Whisper, and FastAPI for intelligent medical query assistance.
- Built location-aware doctor recommendations on 100,000+ records using Haversine distance calculations and implemented JWT-based authentication, conversational memory, and personalized response generation.

ACHIEVEMENTS

- Secured 1st Place at the college-level project exhibition for the Cloud-Based NAAC Data Management System.
- Earned Oracle Cloud Infrastructure (OCI) certifications in Generative AI Professional, AI Foundations Associate.
- Successfully completed NPTEL certifications in Cloud IoT, Edge ML, and Privacy & Security.
- Captained Team SJEC Racing, leading a 30-member engineering team to achieve AIR 3 in ATVC and AIR 8 Overall at BAJA SAEINDIA 2026.

EDUCATION

B.E. Computer Science & Business Systems <i>SJEC, Mangalore</i>	CGPA: 8.94
Visvesvaraya Technological University	2022 – 2026
12th (Class XII) <i>St Aloysius PU College, Mangalore</i>	85.3%
Karnataka State Board	2021 – 2022
10th (Class X) <i>Holy Redeemer High School, Shivamogga</i>	88.8%
Karnataka State Secondary Education Board	2019 – 2020
